

GBCT TRAINING & EVENTS

CAMERA STABILIZER AND STEADICAM OPERATORS WORKSHOP

TUESDAY 6 to SATURDAY 10 SEPTEMBER 2022

**IF YOU ARE INTERESTED IN ATTENDING,
PLEASE NOTE THERE IS A SELECTION PROCESS.**

There are many reasons why working with Steadicam is one of the most fulfilling jobs in the Camera Department - and by attending this course you will begin to find out why! Steadicam is a complex technique and a great Operator is not created in five days. However, we guarantee you will leave this course with an understanding of the basic technical skills and knowledge of the essential current working industry practices required to become a good Steadicam Operator. Our intensive course timetable is designed around practical exercises to maximize time 'in the harness', with short lectures and demonstrations imparting the vital information an aspiring operator needs. Using state of the art equipment, you will receive practical tuition in the techniques for flying all current models of camera and accessories.

The GBCT's Steadicam courses are considered some of the best available and those attending will receive tuition of the highest standard, conducted by Guild tutors and assistant tutors.

The course is specifically designed for technicians moving towards working in the Steadicam arena. It is essential that applicants are physically fit and comfortable with carrying heavy equipment for long periods of time. There is a selection process.

BE AWARE, WE MAY HAVE TO CONDUCT COVID TESTS/CHECKS ON A DAILY BASIS THROUGHOUT.

Number of places: Up to 10 per course

Cost: £1,800 + VAT

GBCT Members: £1,500 + VAT

The next step: Complete the attached training course application form and send this together with your full CV by email to the GBCT – admin@gbct.org.

Getting a Bursary to help cover expenses:

You may be eligible for a bursary from ScreenSkills which will help with course fees, travel and/or accommodation expenses. (www.screenskills.com).
